

The following was copied from the ATEasy Help screen for GetFileStatus

structFileStatus will have the following file status:

Fields	Type	Description
dtCreated	DATE	Date Time File created
dtLastModified	DATE	Date Time File last modified
dtLastAccessed	DATE	Date Time File last accessed for reading
dSize	DLONG	Logical file size in bytes
dwAttribute	DWORD	File Attribute
bsPath	BSTR	Absolute Filename

The following is a screen-shot of the structure I created in my program

Name	Type
structFileStatus	Struct
dtCreated	DateTime
dtLastModified	DateTime
dtLastAccessed	DateTime
dSize	DLong
dwAttribute	DWord
bsPath	BString

The following is the line of code from my program

```
FileGetStatus("C:\\Progra~1\\ATEasy\\TIP\\NCClient.exe", stFileStatus)
```

The following is a screen-shot of the variable declaration from my program

Name	Type
stFileStatus	structFileStatus
