

# SQS TEST PACKAGE

## SEMITEST QUICK START PACKAGE

- Value priced PXI package bundles the GX5295 & GX7610 chassis
- Includes MXIe1 interface for PX control of PXI Express chassis
- Ideal starter package for developing applications using the GX5295's digital and PMU per pin capabilities
- Includes DIOEasy software for digital waveform creation, display and editing

## DESCRIPTION

The Semitest Quick Start (SQS) package offers a bundled system configuration for users that need a cost effective, compact test system based on the 32 channel, GX5295 100 MHz digital instrument with per pin PMU (parametric measurement unit). The package includes everything you need to interactively develop and deploy test programs using the GX5295. All you need to supply is a desk top computer with one vacant PCIe slot for the MXI interface

The SQS package is available in (3) configurations:

- SQS-1: Includes a GX7610 chassis, MXIe1 interface, software, (1) GX5295 and 2nd year warranty
- SQS-2: Includes a GX7610 chassis, MXIe1 interface, software, (2) GX5295s and 2nd year warranty
- SQS-3: Includes a GX7610 chassis, MXIe1 interface, software, (3) GX5295s and 2nd year warranty
